MAYO CLINIC

Scholarship Nomination Request for the
Mayo Clinic Echocardiography Review Course for Boards and Recertification

You are invited to participate in a Scholarship Program to enhance the preparation for the ***Echocardiography Boards*** of the trainees in your training program.

We, and others, have found that fellows are able to obtain a comprehensive view of a broad range of subjects by frequent interaction and discussion with their peers. One successful tactic has been to identify a suitable fellow to be responsible for running frequent "board review" sessions with their peers.

We would like to support this concept by offering a scholarship to three exceptional fellows to attend our ***Mayo Clinic Echocardiography Review Course for Boards and Recertification***. This course is an extensive 3.5-day course, which covers areas of echocardiography through both didactic teaching as well as interactive board simulation question/answer sessions. We are offering a scholarship program, in which outstanding fellows, who have started their echocardiography fellowship in your program, will be eligible. It would be envisioned that this fellow takes this information back to their institution and conducts teaching and discussion sessions with his/her peers. The scholarship award includes the following:

- **Complimentary tuition**
- **Lodging accommodations from April 25 – 29, 2014**
- **DVD set of the 2013 course lectures**

For more information on this course, please visit http://www.mayo.edu/cme/cardiovascular-diseases-2014r218.

If you would be interested in submitting a scholarship application, please send a Letter of Recommendation (including the candidate's name and contact information) along with the attached nomination form to:

Mayo Clinic – EBR Scholarship Program **Fax: 507.538.0146**
ATTN: Ms. Deborah Feils **E-mail: feils.deborah@mayo.edu**
200 1st Street SW – Gonda 6-472
Rochester, MN 55905

Included in this letter should be information regarding their level of training (at least level 2 echo trained) and confirmation that they will still be in an accredited cardiology fellowship program in 2014. The selection process will be based upon the qualities of:

- knowledge of cardiovascular diseases and echocardiography
- interest in education
- leadership that the fellow has been able to demonstrate

The deadline for receipt of the letter/application is **February 14, 2014**.

We look forward to reviewing your application.

Sincerely,

Charles J. Bruce, M.D.
Jae K. Oh, M.D.
Course Directors
