For 2011 and 2012 dermatology residency applicants: Response requested

Dear applicant:

Mayo Clinic specifically seeks applicants who will excel in our department; who will appreciate the culture and heritage of Mayo Clinic, and who will maximize the opportunities available to them through our tremendous resources. We therefore place high value on selecting applicants to interview who have a unique interest in training at the Mayo Clinic. To assist us in this process, we are asked that in addition to the ERAS application, you also submit the answers to the following questions via email. This allows us to understand your unique strengths and attributes, and to gain insight into what you would hope to achieve through the Mayo Clinic residency training.

We ask that you provided brief answers to the following three questions (max word count 300):

#1. What aspects of the Mayo Clinic dermatology practice appeal to you?
#2. What strengths do feel you could bring to the table that would match well with the Mayo Clinic philosophy?
#3. How do you foresee that you would carry the tradition and values of the Mayo Clinic Heritage into your future practice?

The subject line of your e-mail should read APPLICANT MAYO CLINIC ANSWERS: Last name, first name, ERAS #: XXXXXXX

Please send responses to mayo.derm@mayo.edu by October 15.
