Mayo Clinic Florida Scenario Library:

Alphabetical Listing

ACLS 3rd Degree Heart Block - VF - PEA
ACLS Asystole - Laerdal
ACLS Bradycardia
ACLS Sinus Tach - VF - PEA
ACLS Unstable Narrow Complex SVT
ACLS Unstable Ventricular Tachycardia
ACLS Ventricular Fibrillation
ACLS Ventricular Fibrillation - Laerdal
Acute Asthma - Laerdal
Advanced Radiology Life Support
Angioedema
Brain Attack - NIH Stroke Scale Assessment
Cardiogenic Shock
Cervical Spine Injury - Laerdal
Chronic Obstructive Pulmonary Disease Exacerbation - Laerdal
Concussion - Neck Sports Injury
Concussion Sports Injury
Critical Care Boot Camp Scenarios
Difficult Intubation
Diffuse Axonal Injury - Laerdal
ECG recognition - Rhythm analysis
GI Lab Deteriorating Patient Scenario
GI Lab Procedural Airway Management Scenarios 1&2
GI Lab Recovery Airway Management Scenario
Gunshot to the upper left arm - Laerdal
Heparin Overdose
Hypovolemic Shock
Mainstem Intubation then Pneumothorax
Morphine Overdose - Laerdal
Obstructed Endotracheal Tube
Obstructive Shock
PDP assessment
Pharmacy Rounding Scenarios
Pharyngeal Obstruction - Laerdal
Post tPA Hemorrhage
Respiratory Patient Driven Protocol (PDP)
Right Lower Lob Effusion
Right Partial Nephrectomy
Right Total Hip
Septic Shock
Status Epilepticus
Swan / Ganz Insertion
**Topical Listing**

**ACLS**
- ACLS Asystole - Laerdal
- ACLS Bradycardia
- ACLS Sinus Tach – VF – PEA
- ACLS Unstable Narrow Complex SVT
- ACLS Unstable Ventricular Tachycardia
- ACLS Ventricular Fibrillation
- ACLS Ventricular Fibrillation – Laerdal
- ACLS Unstable Ventricular Tachycardia
- ACLS 3rd Degree Heart Block - VF – PEA

**Airway**
- Acute Asthma - Laerdal
- Angioedema
- Chronic Obstructive Pulmonary Disease Exacerbation - Laerdal
- Difficult Intubation
- Mainstem Intubation then Pneumothorax
- Morphine Overdose - Laerdal
- Obstructed Endotracheal Tube
- PDP assessment
- Pharyngeal Obstruction – Laerdal

**Bleeding**
- Gunshot to the upper left arm - Laerdal
- Traumatic Leg amputation – Laerdal

**Cardiac Rhythms**
- ECG recognition – Rhythm analysis

**Critical Care**
- Critical Care Boot Camp Scenarios

**GI LAB**
- GI Lab Deteriorating Patient Scenario
- GI Lab Procedural Airway Management Scenarios 1&2
- GI Lab Recovery Airway Management Scenario

**Neurology**
- Brain Attack – NIH Stroke Scale Assessment
- Post tPA Hemorrhage
- Status Epilepticus

**Nursing**
- Heparin Overdose
- Right Lower Lob Effusion
Right Partial Nephrectomy
Right Total Hip

**Pharmacy**
Pharmacy Rounding Scenarios

**Radiology**
Advanced Radiology Life Support

**Respiratory Therapy**
Respiratory Patient Driven Protocol (PDP)

**Shock**
Cardiogenic Shock
Hypovolemic Shock
Obstructive Shock
Septic Shock

**Sports Medicine**
Concussion Sports Injury
Concussion – Neck Stabilization Sports Injury
