Course Description

This course is designed as a two-day review of ERCP practice for gastroenterologists, fellows and interested specialty nurses seeking both practical knowledge and technical pearls.

Multiple didactic presentations and panel discussions will provide “state-of-the-art” reviews pertaining to both cognitive aspects and performance of ERCP, with emphasis on evidence based guidance to optimal practices. Over nine hours of live sessions transmitted from three suites in our advanced endoscopy units will demonstrate technical elements during a wide spectrum of procedures. Faculty and moderators will be readily available for easy interchange and discussion of all aspects of endoscopy practice. Course attendees will have the opportunity to tour Gonda 9 (a 17 room high volume, routine endoscopy procedure suite), Charlton 8 (complex endoscopy procedure suite) and other clinic facilities. The course will be held on Thursday and Friday, September 17–18, 2009.
