Pediatric Cardiology 2010 Board Review Course

August 29 – September 3, 2010
The Ritz-Carlton, Laguna Niguel • Dana Point, California

Course Description:

The *2010 Pediatric Cardiology Board Review Course* will be a comprehensive, state-of-the-art review of all aspects of pediatric cardiology. Nationally-recognized experts in the fields of Pediatric Cardiology, Adult Congenital Heart Disease, Critical Care, and Cardiovascular Surgery, will provide in-depth lectures and case presentations that cover the entire subspecialty content important to the candidate for certification in Pediatric Cardiology. A "board format" question and answer session will be held each evening to review the daily course content and hone the participant's skills in test taking. In addition, interactive pre- and post-conference mini-symposia are also planned in Electrophysiology and Exercise Physiology. Although this course is designed to prepare the pediatric cardiology subspecialist for board certification / re-certification, it will also provide the pediatric cardiologist, adult cardiologist, or practicing primary care practitioner with a comprehensive update on the most up-to-date knowledge and scientific advances in our field.

A detailed program schedule and on-line registration will be available in the fall of 2009 at <http://www.mayo.edu/cme>, you can e-mail the Mayo School of Continuous Professional Development at cme@mayo.edu or call 1-800-323-2688.
