# General Information

## COURSE DESCRIPTION

The purpose of the meeting is to integrate state-of-the-art knowledge in cardiology with multimodality cardiac imaging in a clinically-based approach. The scope of the program is broad and will cover a wide spectrum of diseases ranging from ischemic heart disease to cardiac genetics in adults. Expert faculty will present practical clinical approaches to diagnostics and latest management strategies of challenging and controversial topics in cardiology.

## COURSE LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Describe the latest diagnostic and management strategies in coronary artery disease;
- Incorporate the use of newer imaging modalities in the detection and treatment of complications of myocardial ischemia;
- Assess optimal timing of surgical intervention in valvular heart disease;
- Differentiate the role of PET, Echo and CMR imaging in detection of ischemia and hibernating myocardium;
- Assess advances in noninvasive coronary imaging with multislice CT angiography and cardiac magnetic resonance; and
- Discuss the newer concepts of management of heart failure, cardiomyopathies, valvular disease, and atherosclerosis.

Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

## INTENDED AUDIENCE

This course is intended for cardiovascular specialists, cardiac surgeons, cardiovascular fellows, and internists with special interest in clinical cardiology and newer cardiac imaging modalities such as CMR, multislice CT, and PET.

## CREDIT

College of Medicine, Mayo Clinic, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

College of Medicine, Mayo Clinic, designates this educational activity for a maximum of 24.5 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## EDUCATIONAL GRANTS

At the time of this printing, a complete listing of commercial supporters was not available. Appropriate acknowledgment will be given to all supporters at the time of the meeting. Exhibits will be available for viewing at all scheduled breaks.

## DATE AND LOCATION

The *Cardiology at Cancún* course will be held **February 22-26, 2010**. The program will be held in the CasaMagna Ballroom on the lobby level of the Marriott CasaMagna Resort.

The Marriott CasaMagna Resort, a beautiful luxury beach resort in Cancún, Mexico, is only 15 minutes from the Cancún International Airport. Attendees and their families will enjoy both beach and pool swimming, scuba diving, snorkeling, wind-surfing, fishing, and twilight cruises along with tennis and golf. Trips can be arranged to nearby ancient Mayan pyramids. There are fashionable shops and gourmet restaurants serving Mexican and international cuisine in this lovely beach-side setting.

## REGISTRATION

To register online, visit [www.mayo.edu/cme/cardiology.html](http://www.mayo.edu/cme/cardiology.html) or complete the attached registration form and return by mail or fax. The registration fee includes tuition, comprehensive course syllabus, continental breakfasts, break refreshments, and reception. Although it is not Mayo School of CME policy to limit the number of registrants for a
