LEARNING OBJECTIVES

At the completion of this course, participants should be able to better:

- Distinguish lifestyle interventions and primary preventative measures that improve cardiovascular prognosis
- Describe contemporary diagnostic and management strategies for acute coronary syndromes
- Incorporate the use of contemporary imaging modalities for the detection and treatment of coronary artery disease
- Recognize the latest diagnostic and management strategies for patients with stable coronary artery disease

INTENDED AUDIENCE

The course should be of interest for cardiologists, cardiovascular surgeons, internists, physician assistants, and nurse practitioners managing patients with coronary artery disease.

COURSE DIRECTORS

MALCOLM R. BELL, M.D.  RAJIV GULATI, M.D., PH.D.
