CORONARY ARtery DISEASE
Case-Based Learning

LAS VEGAS, NEVADA
FOUR SEASONS LAS VEGAS
NOVEMBER 17–19, 2017

20.75
AMA CATEGORY
1 CREDITS™
COURSE DESCRIPTION
This educational program will provide up-to-date practical knowledge to optimally manage patients with coronary artery disease. Case-based presentations will be complemented by state-of-the-art lectures and topical debates covering the spectrum of coronary artery disease, including the latest advances in prevention, detection, and revascularization. Throughout the program multiple challenging cases and dilemmas will be presented. Emphasis will be placed upon take-home messages offered by expert faculty.

LEARNING OBJECTIVES
At the completion of this course, participants should be able to better:
• Distinguish lifestyle interventions and primary preventative measures that improve cardiovascular prognosis
• Describe contemporary diagnostic and management strategies for acute coronary syndromes
• Incorporate the use of contemporary imaging modalities for the detection and treatment of coronary artery disease
• Recognize the latest diagnostic and management strategies for patients with stable coronary artery disease

INTENDED AUDIENCE
The course should be of interest for cardiologists, cardiovascular surgeons, internists, physician assistants, and nurse practitioners managing patients with coronary artery disease.

COURSE DIRECTORS
Malcolm R. Bell, M.D.
Rajiv Gulati, M.D., Ph.D.

LODGING ACCOMMODATIONS
Guest rooms are available with special rates at the Four Seasons Las Vegas for $260 single/double. In order to receive the special rate, reservations must be made by October 16, 2017.
