Pericardial Disease: Diagnosis, Management & Clinical Mimickers

Saturday, November 13, 2010
7:00 - 7:15 p.m.  Registration
7:15 - 9:45 p.m.  Program
Hyatt Regency McCormick Place
Chicago, IL

Program Directors:
Jae K. Oh, M.D.
Rick A. Nishimura, M.D.
Hartzell V. Schaff, M.D.

Sponsored by: Mayo Clinic Division of Cardiovascular Diseases, Division of Cardiovascular Surgery, and the Mayo Pericardial Disease Clinic

This event is not part of the official Scientific Sessions 2010 as planned by the AHA Committee on Scientific Sessions Program.
Course Description

Pericardial diseases include a spectrum of clinical conditions involving the pericardium, from asymptomatic pericardial cyst to fatal tamponade. Some patients are disabled due to relapsing pericarditis or undergo multiple diagnostic procedures before the diagnosis of constrictive pericarditis is firmly established. Noninvasive Doppler hemodynamic assessment is matured and comprehensive enough to firmly establish the diagnosis of constrictive pericarditis, and there is a wide gap between what can be done and what is actually being done in clinical practice. This program will highlight new findings and key clinical pearls in management of patients presenting with pericardial disease.

Course Learning Objectives

Upon completion of this program, participants should be able to:
• define pericardial diseases and appropriate treatment, and
• describe diagnostic procedures for pericardial diseases.

Intended Audience

The symposium is designed for physicians and scientists who specialize in cardiology, cardiac surgery, or internal medicine, as well as medical and surgical residents and fellows with an interest in pericardial disease.

Credit

College of Medicine, Mayo Clinic, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

College of Medicine, Mayo Clinic, designates this educational activity for a maximum of 2.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Location

Pericardial Disease: Diagnosis, Management & Clinical Mimickers will be held Saturday, November 13, 2010 at Hyatt Regency McCormick Place, 2233 South Martin L. King Drive, Chicago, IL. The meeting will be held in the Convention Center 10B Ballroom on the First Level.
