

# Neuroradiology: Practice to Innovation

November 8 – 12, 2010

The Ritz-Carlton • Naples, Florida

## Course Description

*Neuroradiology: Practice to Innovation* is designed for the practicing radiologist whose work involves neuroradiology, or those involved in the neurological sciences, neurosurgery, neurology, and/or related fields. It is intended to provide a practical discussion and review of common diseases involving the brain, head/neck, and spine. It will provide an overview of common imaging strategies and incorporate evolving new modalities. Also, this course will review common endovascular and spinal interventional techniques utilized in neuroradiology.
