Optional Pre-Course Session ~ Sunday, September 22, 2013
American Board of Pediatrics (ABP) Maintenance of Certification Part 2 Self-Assessment
The optional pre-course American Board of Pediatrics (ABP) Maintenance of Certification Part 2 Self-Assessment session is chaired by expert faculty who will analyze reference articles and module questions to explain why they are important for the field and provide key points and clinical pearls. Session attendees actively participate through verbal discussion and understanding of current evidence and a common consensus would be achieved in answering these questions. The collective information gathered in these interactive sessions enhances individual knowledge and longer retention of current medical information.

Attendees are required to bring their laptops to the session in order to log in to their personal portfolio on www.abp.org and go to the activity under the MOC section. ABP recommends a laptop computer be used to take this self-assessment. Mobile device technology, including iPad, may experience difficulty. After the completion of this interactive module, credit for MOC Part 2 will be entered directly into your ABP portfolio.

There is an additional cost of $100 to attend this session.

Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.
