COURSE HIGHLIGHTS
Advancements in rehabilitation are accelerating at an unprecedented rate. Physical medicine and rehabilitation professionals need an opportunity to gather and learn about the latest developments.

- This multidisciplinary course is designed to update professionals with regards to techniques and topics pertaining to Physical Medicine and Rehabilitation.
- Topics of interest include: musculoskeletal rehabilitation, regenerative medicine, brain injury, concussion management, spinal cord injury, cancer rehabilitation, fall prevention and care of the critically ill patient.
- Workshops include: Regenerative Medicine, Falls/Vestibular, Research/Writing/Quality Assurance project, Behavior Shaping Therapy, Hand Conditions and Hand Therapy, Critical Illness/Dysphagia, Orthopedic Physical Exam of the Lower Extremity

TARGET AUDIENCE
Physicians, Physical Therapists, Occupational Therapists, Physician Assistants, Nurse Practitioners, Speech-Language Pathologists, Rehabilitation Psychologist, Residents, Fellows and Students

LEARNING OBJECTIVES
Upon conclusion of this program, participants should be able to:

- Summarize the most up to date rehabilitation treatment recommendations for managing low back pain.
- Recognize the current concepts of “Regenerative Medicine” and how this may apply to patient care.
- Describe the principles of clinical decision making for safe and effective early rehabilitation in ICU.
- Identify the common management strategies for concussions.
- Review the current concepts for avoidance of falls in the older adult population.

Attendance at this Mayo Clinic course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.
