# Advanced Techniques in Shoulder Arthroscopy

Mayo Clinic  
Course Directors:  
*Scott P. Steinmann, M.D.*  
*John W. Sperling, M.D.*  
*Diane L. Dahm, M.D.*

**Saturday, July 8, 2006**

**Mayo Clinic • Rochester, Minnesota**

## **DON'T MISS THIS OPPORTUNITY!**

This is an advanced course for orthopedic surgeons interested in arthroscopy of the shoulder. The course will include didactic sessions leading into a hands on laboratory experience using cadavers. Live video demonstrations and panel discussions are an integral part of the overall learning experience. The course will teach the principles and techniques for management of rotator cuff tears, SLAP lesions, instability and arthritis. A high teacher to student ratio will allow for close observation and instruction. Mayo Clinic's Surgical Skills Laboratory located on campus in the Stable Medical Science Building offers a state of the art learning environment.

**Online registration available at: [www.mayo.edu/cme](http://www.mayo.edu/cme)**
