The Toxicology and Therapeutic Drug Monitoring Conference may focus on topics such as listed below, although specific topics and speakers are to be determined.

- Pain management
- Methamphetamine exposure
- New analytical technique reviews (GC/MS, LC/MS/MS)
- Drug interferences, sample adulteration, interpretation
- Postmortem toxicology
- Therapeutic drug management - antiepileptic treatment and drug monitoring

Midwest Association for Toxicology and Therapeutic Drug Monitoring (MATT) is a non-profit, Midwest regional organization of science professionals who have overlapping interests in Toxicology and Therapeutic Drug Monitoring (TDM). MATT hosts an annual conference to provide a platform for exchange of information, and strives to maintain an informal atmosphere for all professionals and students in the field of Toxicology.
Toxicology and Therapeutic Drug Monitoring Conference

April 9 & 10, 2009
Mayo Clinic • Rochester, MN

Jointly Sponsored by College of Medicine, Mayo Clinic and the Midwest Association for Toxicology and Therapeutic Drug Monitoring (MATT).

Additional Information
Check the Mayo School of Continuing Medical Education website at www.mayo.edu/cme/apr2009.html for the full course brochure in the fall of 2008. Requests for additional information should be sent to the attention of the CME Registrar, Mayo School of Continuing Medical Education, via e-mail at cme@mayo.edu or FAX to 507-284-0532.
