13th Annual
Mayo Clinic Interventional Cardiology Board Review

September 16-18, 2016
Phillips Hall, Mayo Clinic Campus
Rochester, MN

Course Directors
Gregory W. Barsness, M.D.
Malcolm R. Bell, M.B., B.S.
Eric H. Yang, MD
This state-of-the-art, three-day course provides a comprehensive review of interventional cardiology topics and information with practical application in studying for board certification and renewal in interventional cardiology.

1. Utilize electronic syllabus materials to study anytime throughout the next year.
2. Obtain MOC points through interactive participation in ABIM Interventional Cardiology Module completion.
3. Benefit from clinical content clearly aligned with the board exam to enable repetitive dosing of core concepts.
4. Utilize a customized study guide based upon your pre-test and post-test knowledge.
5. Network with faculty in an intimate setting that facilitates individualized instruction and feedback.
