AMA PRA CATEGORY 1
22.5
COURSE DESCRIPTION

This premier two and ½ day course course highlights interventional cardiology topics and information with practical application in studying for board certification and recertification in Interventional cardiology. The course covers basic aspects of interventional cardiology, including catheterization laboratory equipment, radiation physics and safety, pharmacology, and procedural planning and performance. Specific patient lesion and procedural characteristics are highlighted including a review of challenging cases.

LEARNING OBJECTIVES

At the completion of this course, participants should be able to better:

- Describe the “reperfusion dilemma” faced by patients who present to non-primary PCI hospitals
- Identify factors that influence revascularization strategies and outcomes in ACS
- Determine indications and appropriate use of anticoagulant therapy in patients undergoing PCI
- Identify the mechanisms of action for recommended classes of antiplatelet therapy with coronary indications
- Recall the indications for IVUS and OCT for quantifying plaque burden, plaque composition, non-atherosclerotic pathology, and assessing stent deployment
- Recognize factors that influence patient selection and outcomes from TAVR and manage complications appropriately
- Estimate the utility of invasive and non-invasive imaging for clinical decision-making in structural heart disease

INTENDED AUDIENCE

This course is primarily intended for cardiologists and cardiovascular fellows preparing for the ABIM Interventional Cardiology certification/recertification exam. However, this course also provides a focused state-of-the-art review of interventional cardiology topics for all cardiovascular practitioners and trainees.

WHAT SETS OUR COURSE APART FROM OTHERS

This course will provide an online board examination style mock test that will assess your knowledge before and after the course. This educational tool will specifically identify areas for you to study and create an individualized study guide that will pull unique course materials based on your baseline score. These tools were developed with expert educationalists.

COURSE DIRECTORS

Gregory Barsness, M.D.
Rajiv Gulati, M.D., Ph.D.
Abiraham Prasad, M.D.
Eric Yang M.D.
REGISTRATION FEES

$795 MD, PhD, DO, PharmD
$645 Resident, Fellow, NP, PA, RN

The registration fee includes tuition, electronic and printed course syllabus, continental breakfasts, break refreshments, and lunches. Although it is not Mayo Clinic Cardiovascular CME policy to limit the number of registrants for a course, conference room facilities may necessitate closing of enrollment; therefore, early registration is advised. Enrollment for this program is limited.
