12th Annual Practical Course in 
DERMOSCOPY & Update on 
MALIGNANT MELANOMA

WESTIN KIERLAND RESORT & SPA
SCOTTSDALE, ARIZONA
DECEMBER 8–10, 2017
COURSE HIGHLIGHTS
This three-day course will provide the attendee with a multidisciplinary review of standard of care management practices and state-of-the-art advances in care of the patient with cutaneous melanoma. The course structure will include:

• One day focus on epidemiology, prevention, pathology, surgical treatment and advances in systemic therapy for patients with melanoma.
• Two days of in-depth immersion into dermoscopy for imaging of melanocytic and nonmelanocytic skin lesions.
• Breakout sessions focused on surgery, medical oncology and introduction to dermoscopy.
• Develop practical skills to be more comfortable approaching patients with atypical skin lesions.

TARGET AUDIENCE
This course is designed for Dermatologists, Surgeons, Oncologists, Physicians in Internal Medicine, Family Practice, and General Practice including Physician Assistants and Nurse Practitioners.

LEARNING OBJECTIVES
Upon completion of this activity, participants should be able to:

• Apply pattern analysis and simple algorithms for the identification of skin neoplasms.
• Identify and differentiate melanocytic from non-melanocytic lesions using dermoscopy.
• Evaluate the efficacy and risks of sunscreens, vitamin D, and tanning.
• Describe and compare biopsy techniques and indications.
• Describe the side effects of therapy for advanced melanoma.
• Evaluate the important aspects of pathology reports for melanoma and identify the relevant prognostic information.
• Cite the pros/cons and rational for sentinel lymph node biopsy in primary cutaneous node biopsy.
• List some of the management options for advanced melanoma.

PROGRAM AND ONLINE REGISTRATION
A complete program and online registration is available on the course website: ce.mayo.edu/DermMM2017
