11th Annual Practical Course in Dermoscopy & Update on Malignant Melanoma

SAVE THE DATE
DECEMBER 2-4, 2016
WESTIN KIERLAND • SCOTTSDALE, ARIZONA

Additional Category 1 CME and MOC Part II self-assessments available online after course
COURSE DESCRIPTION/HIGHLIGHTS
This three-day course will provide the attendee with a multidisciplinary review of standard of care management practices and state-of-the-art advances in care of the patient with cutaneous melanoma. Topics will focus on epidemiology, prevention, pathology, surgical treatment and advances in genomics and systemic therapy for patients with melanoma. Sessions also include an in-depth immersion into Dermoscopy for imaging of melanocytic and nonmelanocytic skin lesions, including breakout sessions. Participants will develop practical skills that will enable them to be more comfortable approaching patients with atypical skin lesions. This Dermoscopy section is primarily targeted to clinicians, including NPs/PAs and residents with a focus on this field will find it valuable as well. The intended audience is dermatologists, surgeons, oncologists, physicians in internal medicine, family practice, and general practice.

ACCOMMODATIONS
Westin Kierland Resort & Spa is located in Northeast Phoenix, adjacent to Kierland Commons, a 38-acre specialty retail development featuring shops, boutiques, and restaurants. Experience a spa that honors the healing cultures of Old Arizona, our 27-holes of Troon-managed world-class golf at the Kierland Golf Club, the spectacular outdoor pool complex with sand beach, 110-foot waterslide, and a 900-foot river for lazy floating.
