| <b>Both Germline DNA* and Paraffin Tissue</b>  | 0               | 834          | 379                                    | 182         | 101                        | 29  | 90                        | 27                   |
| <b>Both Germline DNA* and Frozen Tissue</b>    | 0               | 524          | 249                                    | 92          | 61                         | 8   | 34                        | 8                    |
| <b>Both Paraffin and Frozen Tissue</b>         | 0               | 635          | 343                                    | 113         | 59                         | 18  | 38                        | 18                   |
| <b>All 3 (Germline DNA*, Paraffin, Frozen)</b> | 0               | 473          | 221                                    | 87          | 50                         | 7   | 31                        | 8                    |

***\*Germline DNA is derived from lymphocytes or buccal - majority have serum or plasma available***

***\*Note: Paraffin tissues last entered 08/15/2010***

***There is a small additional number of individuals with questionnaire data and no biospecimen***

***Note: These numbers are estimates, to be used for planning studies***

***Use of these data is for research only***
