

110 Publications by the KER Unit relevant to methodology and bias:

1. Akl EA, Maroun N, Guyatt G, et al. Symbols were superior to numbers for presenting strength of recommendations to health care consumers: a randomized trial. *Journal of clinical epidemiology*. Dec 2007;60(12):1298-1305.
2. Alonso-Coello P, Montori VM, Sola I, et al. Values and preferences in oral anticoagulation in patients with atrial fibrillation, physicians' and patients' perspectives: protocol for a two-phase study. *BMC health services research*. 2008;8:221.
3. Bancos I, Natt N, Murad MH. Long-term corticosteroid replacement in patients with adrenal insufficiency and measuring patient experience. *Endocrine practice : official journal of the American College of Endocrinology and the American Association of Clinical Endocrinologists*. Jul-Aug 2011;17(4):651-654.
4. Bassler D, Briel M, Montori VM, et al. Stopping randomized trials early for benefit and estimation of treatment effects: systematic review and meta-regression analysis. *JAMA : the journal of the American Medical Association*. Mar 24 2010;303(12):1180-1187.
5. Bassler D, Ferreira-Gonzalez I, Briel M, et al. Systematic reviewers neglect bias that results from trials stopped early for benefit. *Journal of clinical epidemiology*. Sep 2007;60(9):869-873.
6. Bassler D, Montori VM, Briel M, Glasziou P, Guyatt G. Early stopping of randomized clinical trials for overt efficacy is problematic. *Journal of clinical epidemiology*. Mar 2008;61(3):241-246.
7. Bhandari M, Busse J, Devereaux PJ, et al. Factors associated with citation rates in the orthopedic literature. *Canadian journal of surgery. Journal canadien de chirurgie*. Apr 2007;50(2):119-123.
8. Bhandari M, Busse JW, Jackowski D, et al. Association between industry funding and statistically significant pro-industry findings in medical and surgical randomized trials. *CMAJ : Canadian Medical Association journal = journal de l'Association medicale canadienne*. Feb 17 2004;170(4):477-480.
9. Bhandari M, Guyatt GH, Montori V, Devereaux PJ, Swiontkowski MF. User's guide to the orthopaedic literature: how to use a systematic literature review. *The Journal of bone and joint surgery. American volume*. Sep 2002;84-A(9):1672-1682.
10. Bhandari M, Montori V, Devereaux PJ, Dosanjh S, Sprague S, Guyatt GH. Challenges to the practice of evidence-based medicine during residents' surgical training: a qualitative study using grounded theory. *Academic medicine : journal of the Association of American Medical Colleges*. Nov 2003;78(11):1183-1190.
11. Bhandari M, Montori VM, Devereaux PJ, Wilczynski NL, Morgan D, Haynes RB. Doubling the impact: publication of systematic review articles in orthopaedic journals. *The Journal of bone and joint surgery. American volume*. May 2004;86-A(5):1012-1016.
12. Bhandari M, Montori VM, Schemitsch EH. The undue influence of significant p-values on the perceived importance of study results. *Acta orthopaedica*. Jun 2005;76(3):291-295.
13. Bhandari M, Montori VM, Swiontkowski MF, Guyatt GH. User's guide to the surgical literature: how to use an article about a diagnostic test. *The Journal of bone and joint surgery. American volume*. Jun 2003;85-A(6):1133-1140.
14. Briel M, Lane M, Montori VM, et al. Stopping randomized trials early for benefit: a protocol of the Study Of Trial Policy Of Interim Truncation-2 (STOPIT-2). *Trials*. 2009;10:49.
15. Burneo JG, Montori VM, Faught E. Magnitude of the placebo effect in randomized trials of antiepileptic agents. *Epilepsy & behavior : E&B*. Dec 2002;3(6):532-534.

16. Burneo JG, Montori VM, Faught E. Placebo effect in antiepileptic drug trials. *Epilepsy & behavior : E&B*. Jun 2003;4(3):371.
17. Carling CL, Kristoffersen DT, Flottorp S, et al. The effect of alternative graphical displays used to present the benefits of antibiotics for sore throat on decisions about whether to seek treatment: a randomized trial. *PLoS medicine*. Aug 2009;6(8):e1000140.
18. Carling CL, Kristoffersen DT, Montori VM, et al. The effect of alternative summary statistics for communicating risk reduction on decisions about taking statins: a randomized trial. *PLoS medicine*. Aug 2009;6(8):e1000134.
19. Curioso WH, Montori VM, Curioso WI. [Evidence based medicine for the gastroenterologist]. *Revista de gastroenterologia del Peru : organo oficial de la Sociedad de Gastroenterologia del Peru*. Jan-Mar 2004;24(1):75-91.
20. Daniels CE, Montori VM, Dupras DM. Effect of publication bias on retrieval bias. *Academic medicine : journal of the Association of American Medical Colleges*. Mar 2002;77(3):266.
21. Devereaux PJ, Bhandari M, Clarke M, et al. Need for expertise based randomised controlled trials. *BMJ*. Jan 8 2005;330(7482):88.
22. Devereaux PJ, Bhandari M, Montori VM, Manns BJ, Ghali WA, Guyatt GH. Double blind, you are the weakest link--good-bye! *ACP journal club*. Jan-Feb 2002;136(1):A11.
23. Devereaux PJ, Bhandari M, Montori VM, Manns BJ, Ghali WA, Guyatt GH. Double blind, you are the weakest link--goodbye! *Equine veterinary journal*. Nov 2005;37(6):557-558.
24. Devereaux PJ, Bhandari M, Montori VM, Manns BJ, Ghali WA, Guyatt GH. Double blind, you have been voted off the island! *Evidence-based mental health*. May 2002;5(2):36-37.
25. Devereaux PJ, Choi PT, El-Dika S, et al. An observational study found that authors of randomized controlled trials frequently use concealment of randomization and blinding, despite the failure to report these methods. *Journal of clinical epidemiology*. Dec 2004;57(12):1232-1236.
26. Devereaux PJ, Manns BJ, Ghali WA, et al. Physician interpretations and textbook definitions of blinding terminology in randomized controlled trials. *JAMA : the journal of the American Medical Association*. Apr 18 2001;285(15):2000-2003.
27. Deville WL, Buntinx F, Bouter LM, et al. Conducting systematic reviews of diagnostic studies: didactic guidelines. *BMC medical research methodology*. Jul 3 2002;2:9.
28. Elamin MB, Flynn DN, Bassler D, et al. Choice of data extraction tools for systematic reviews depends on resources and review complexity. *Journal of clinical epidemiology*. May 2009;62(5):506-510.
29. Ferreira-Gonzalez I, Alonso-Coello P, Sola I, et al. [Composite endpoints in clinical trials]. *Revista espanola de cardiologia*. Mar 2008;61(3):283-290.
30. Ferreira-Gonzalez I, Busse JW, Heels-Ansdell D, et al. Problems with use of composite end points in cardiovascular trials: systematic review of randomised controlled trials. *BMJ*. Apr 14 2007;334(7597):786.
31. Ferreira-Gonzalez I, Permanyer-Miralda G, Busse JW, et al. Methodologic discussions for using and interpreting composite endpoints are limited, but still identify major concerns. *Journal of clinical epidemiology*. Jul 2007;60(7):651-657; discussion 658-662.
32. Ferreira-Gonzalez I, Permanyer-Miralda G, Busse JW, et al. Composite outcomes can distort the nature and magnitude of treatment benefits in clinical trials. *Annals of internal medicine*. Apr 21 2009;150(8):566-567.
33. Furukawa TA, Watanabe N, Omori IM, Montori VM, Guyatt GH. Association between unreported outcomes and effect size estimates in Cochrane meta-analyses. *JAMA : the journal of the American Medical Association*. Feb 7 2007;297(5):468-470.
