For Initial Certification and Recertification

ROCHESTER, MINNESOTA
AUGUST 26-30, 2017
OPTIONAL POST-COURSE ECHO FOCUS SESSION:
AUGUST 31, 2017

DEPARTMENT OF CARDIOVASCULAR MEDICINE
ROCHESTER, MINNESOTA
AUGUST 26-30, 2017
OPTIONAL POST-COURSE ECHO FOCUS SESSION:
AUGUST 31, 2017
COURSE DESCRIPTION

Mayo Clinic Cardiovascular Review Course for Cardiology Boards and Recertification (CVBR) will provide the cardiologist and internist with an overview of all aspects of cardiovascular medicine.

Well-known experts in each field will give in-depth, engaging lectures on state-of-the-art subjects in cardiovascular medicine. Each lecture will be followed by a question and answer session with an audience response system. Although this course is designed specifically to prepare the cardiovascular specialist for the cardiovascular boards, it will also provide the practicing cardiologist or internist with an update on the latest knowledge and advances in cardiovascular medicine.

LEARNING OBJECTIVES

- Diagnose acute coronary syndromes, select appropriate revascularization methods, and apply recent guidelines for medical management.
- Recognize physical findings of valvular heart disease and choose treatment approaches based on individualized assessment of patient health status and comorbidities.
- Diagnose, evaluate, and appropriately manage patients with structural heart disease.
- Apply current guidelines and recent clinical trial evidence to the management of patients with heart failure with reduced or preserved ejection fraction.
- Recognize the electrical signatures of common arrhythmias and select optimal treatment approaches.
- Review basic cardiovascular physiology and pharmacology and apply this knowledge to key aspects of diagnosis and management.
- Effectively manage complex patients, including pregnant women, the frail older patient, and patients with multiple comorbidities.
BLENDED (LIVE + ONLINE) CURRICULUM

- Expert lectures designed for clinical application
- Pre-test and daily sprint tests at the live course, followed by an online post-course test
- Online study guide personalized per your pre/post test results
- Simulated online ECG, Echo and Angio exam
- 300 + board style questions
