"There are two objects of medical education:
To heal the sick, and to advance the science."

Charles H. Mayo
Advanced Spirometry
February 26-27, 2003
Mayo Clinic, Siebens Building
Rochester, Minnesota

Course Directors: Paul Scanlon, MD, and Carl Mottram, RRT, RPFT, RCP
Presented by Mayo Pulmonary Services

This course incorporates the standard NIOSH-certified spirometry training course fundamentals with additional learning objectives. It is designed for pulmonary and allergy physicians, residents, nurses, and respiratory therapists who desire an advanced level of spirometry instruction.

Integration Through Community Laboratory Insourcing: Implementing A Successful Laboratory Outreach Program
March 19-21, 2003
Chateau Sonesta
New Orleans, Louisiana

October 8-10, 2003
Marriott Hotel
Providence, Rhode Island

Course Director: Rodney Forsman
Presented by Mayo Medical Laboratories

The development, implementation, and growth of a successful laboratory outreach program are critical to health system integration for community hospitals and nursing homes. Laboratory ‘insourcing’ optimizes utilization and improves service to physicians and patients within the community. In addition, the laboratory as a core competency contributes significantly to lowering aggregate cost of patient care.

This conference will present a practical approach to key aspects of a successful laboratory outreach program, such as quality systems, marketing, customer service, transportation, and billing.

Quality Issues in Phlebotomy
April 10-11, 2003
Phillips Hall, Siebens Building
Mayo Clinic, Rochester, Minnesota

Course Directors: Linda Iverson and Sharon Wiesner
Presented by Mayo Medical Laboratories

This conference will address important issues that phlebotomists, phlebotomy managers, and other patient care staff face on a daily basis. This two-day conference will enhance your capabilities by providing...
options for dealing with issues such as safety during blood collections, technical insight into quality collections, and phlebotomy education. The conference format balances topics of general interest, which are in large group sessions, with specific collection and management issues addressed in smaller breakout sessions. This conference is designed for phlebotomists, phlebotomy supervisors, and other patient care staff involved in specimen collections.

Practical Spirometry

April 29-30, 2003
Radisson Plaza Hotel
Rochester, Minnesota

Course Directors: Paul Scanlon, MD, and Carl Mottram, RRT, RPFT, RCP
Presented by Mayo Pulmonary Services

This course will provide instruction in spirometry techniques, spirometry standards, calculations, pulmonary disease patterns, and documentation. It is designed for health professionals involved in performing spirometry tests in both industrial and clinical settings.

10th International Surgical Pathology Symposium

May 6-9, 2003
Four Seasons Hotel
Dublin, Ireland

Course Director: Lester Wold, MD
Presented by Mayo School of Continuing Medical Education and Mayo Medical Laboratories

The 10th International Surgical Pathology Symposium will address common but difficult diagnostic problems encountered by the surgical pathologist in everyday practice. Designed to simulate the daily activities of the pathologist, the symposium curriculum will allow participants to review case histories in identified subject matter areas, view slides microscopically, and formulate a diagnosis.

Practical Surgical Pathology

September 11-13, 2003
Leighton Auditorium, Siebens Building
Mayo Clinic, Rochester, Minnesota

Course Directors: Lester Wold, MD, and Gary Keeney, MD
Presented by Mayo School of Continuing Medical Education and Mayo Medical Laboratories

This conference will address common but difficult diagnostic problems encountered by the surgical pathologist in everyday practice. Designed to simulate the daily activities of the pathologist, the symposium curriculum will allow participants to review case histories in identified subject matter areas, view slides microscopically, and formulate a diagnosis.
For information on any of the 2003 conferences, please check the box next to the topics you are interested in attending. Complete the form and return it to Mayo Reference Services’ Education Office. You may also request a brochure via our Fax on Demand (FOD) Service at 1-800-CME-MAYO or 1-858-712-0341.

Web
A complete list of Mayo Clinic Continuing Medical Education (CME) courses is available on the Mayo Web home page at [www.mayo.edu/cme/courses.htm](http://www.mayo.edu/cme/courses.htm). Brochures are posted on this site 3 to 4 months prior to the conference.

Fax on Demand
Mayo’s Fax on Demand (FOD) Service gives you access to information about our CME courses. Dial 1-800-CME-MAYO from anywhere in the US or 1-858-712-0341 from anywhere in the world to request a brochure. Be sure to have your own complete fax number available. The conference brochure will be posted in this section 3 to 4 months prior to the conference.
