MEDICAL

At Mayo Clinic, the needs of the patient come first — and that includes you and your family. That’s why all Mayo Medical Plan options cover the same services. No need to compare your medical plan options based on services. Instead, look at the cost-sharing amounts — the premiums, deductibles, copayments, and out-of-pocket maximums — to determine what meets your preferences or needs.

Annual total risk perspective

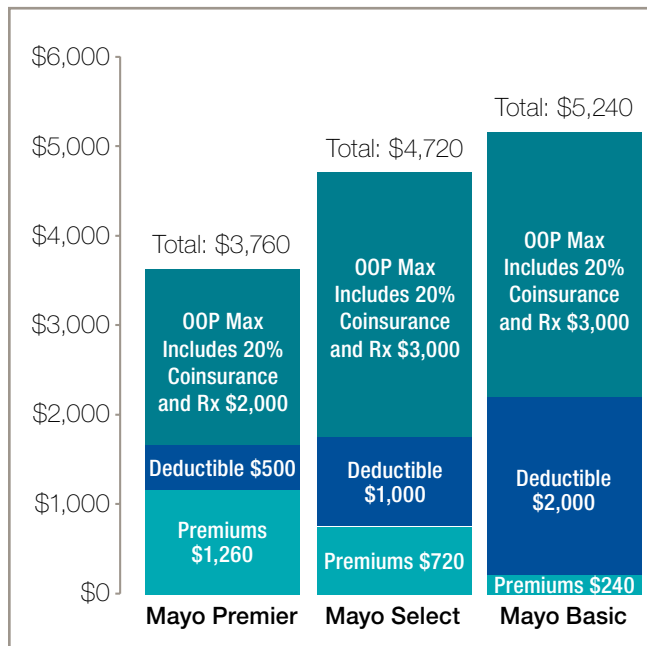

When you consider the three medical plan options from an annual total risk perspective, it can help you determine which plan option is right for you and your eligible dependents.

Keep in mind this is for Tier 1 in-network coverage, and many covered staff members and their dependents do not reach their out-of-pocket maximum. Some may not

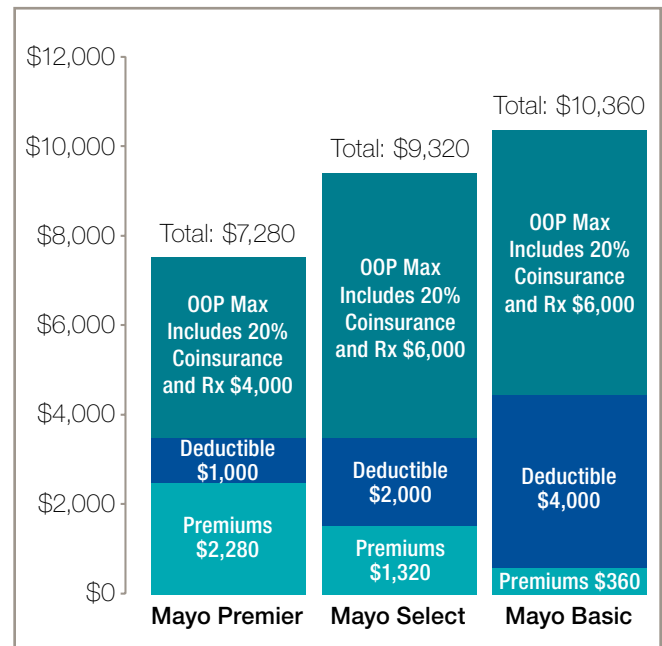

even meet or pay any deductible, especially if they only seek preventive care services. We share this information to provide you with peace of mind should an unexpected event occur, or if you are a high utilizer of the medical plan. We believe providing you with the right service at the right time creates a strong benefits foundation to build on.

Health Care Flexible Spending Account (FSA)*

The Health Care FSA allows participants to set aside pre-tax income (up to \$2,650 maximum annual contribution per employee) to pay for eligible health care expenses incurred but not covered by other plans. Staff with a Health Care FSA will be allowed to roll-over \$500 per year.

RETIREMENT

Mayo Clinic provides a comprehensive and competitive retirement package that will assist you in achieving personal financial security for your retirement.

Pension Plan

Mayo Clinic is one of the few U.S. companies who continue to provide a pension benefit at no cost to their staff. The Mayo Pension Plan is a defined benefit plan where contributions are made by your employer. Your final benefit payout can be predicted because it is determined by a formula rather than by investment results. The longer you work for Mayo Clinic and the more you earn, the better the benefit becomes. An online estimator tool is provided to help employees see just how quickly they can build up a stable monthly income for retirement.

403(b) and 401(k) Retirement plans

The voluntary 403(b) or 401(k) plans allow staff members to contribute pre-tax or post-tax Roth dollars to an investment plan administered by Fidelity Investments. There are many investment options to choose from, including a self-directed brokerage account. You may generally defer up to 50% of annual salary or the annual IRS limit, whichever is less. New staff members are automatically enrolled at a 4% contribution rate of salary. Mayo Clinic will match the first 4 percent of staff contributions per pay period (up to IRS annual limits) based on pension benefit service as shown in the chart below.

Length of pension benefit service	Mayo Clinic match (%)	Example match based on pension benefit service
0-19	50% on the first 4% of employee contribution	\$1.00 employee contribution \$0.50 Mayo match
20-29	75% on the first 4% of employee contribution	\$1.00 employee contribution \$0.75 Mayo match
≥30	100% on the first 4% of employee contribution	\$1.00 employee contribution \$1.00 Mayo match

Supplemental Retirement Plan (SRP)

Staff members are eligible to receive a non-qualified retirement plan that provides a benefit beyond the Mayo Pension Plan when salary is greater than the annual compensation limit.

Income Tax Preparation

Professional assistance is available through the Mayo Income Tax Preparation Program. Reimbursement is available up to \$600 annually when you choose one of the designated accounting firms.

Deferred Compensation 457(b)

Staff members are eligible to participate in a voluntary program that allows individuals the opportunity to defer

pre-tax dollars in a Fidelity administered investment program. Enrollment and deferral changes are allowed from May 1 - June 15 each year.

Financial Engines

Participants in the 403(b)/401(k) plans are automatically enrolled in Personal Asset Management Services from Financial Engines. Your account will be reviewed periodically and your asset allocation will be updated based on your demographic information and current market conditions. Financial Engines provides retirement planning tools and advisors to answer questions and assist in retirement planning. The first \$5,000 is managed at no charge. You may opt out of this service at any time.
