The program is eight days from Friday through Friday 10 hours per day. Services include medical assessment and daily medical follow-up, medication assessment and treatment, individual and group counseling, educational sessions to help with stress management, relapse prevention, wellness activities, tobacco related health education, and sessions to assist family members and other significant others in helping in the recovery process.

**A pre-service deposit of $5500 will be due the first day of the program.** This is an estimate of the total cost of the program. Final charges may be more or less depending on individual circumstances. You will be expected to purchase medications needed for your treatment during the 8-day program. These can be brought with you or purchased locally. You can contact your medical insurance company to discuss reimbursement for these services and procedures.

**Medicare does not provide coverage for this program.**

Below is a list of services provided to patients in the Nicotine Dependence Center Residential Treatment Program. An internal medicine physician oversees the care of all patients in the program and each person is assigned an individual counselor who is certified as a tobacco treatment specialist.

**Itemization and Description of Services/Charges**

This list outlines the usual services and procedures provided during the program by physicians and allied health staff of the Mayo Clinic Nicotine Dependence Center.
