New tips, techniques, and technologies for complex arrhythmias

SWISSOTEL CHICAGO
CHICAGO, ILLINOIS
SEPTEMBER 7–10, 2019

Co-Sponsored by

CVEDUCATION.MAYO.EDU
COURSE DESCRIPTION
This course will provide comprehensive instruction for diagnosing common and complex cardiac arrhythmias in the electrophysiology laboratory and achieving effective and safe ablation. Case-based illustrative presentations will highlight diagnostic dilemmas and key management strategies. Experts discussing detailed patient cases provide a step-by-step analysis and in-depth review of approaches to catheter ablation for the spectrum of cardiac arrhythmias including atrial fibrillation, complex atrial arrhythmias and atypical atrial flutter after AF ablation or in congenital heart disease. Detailed discussions of relevant cardiac anatomy integrated with intracardiac ultrasound and other imaging modalities are highlighted, along with a hands on anatomy session.

TARGET AUDIENCE
The course is of interest for electrophysiologists, electrophysiology fellows, cardiologists, cardiac surgeons, technologists, physician assistants and nurses/nurse practitioners.

COURSE OBJECTIVES
• Recognize the mechanisms underlying cardiac arrhythmias amenable to ablation
• Distinguish both normal and abnormal cardiac anatomy and its role in the genesis of arrhythmias and ablation strategy
• Describe optimal mapping and ablation techniques for specific arrhythmias and clinical circumstances
• Discuss major risks associated with ablation
• Assess the value and limitations of high-end technology in the ablation process
• Identify the role for pre and intraprocedural imaging techniques to optimize outcomes and increase safety of ablation procedures

LODGING ACCOMMODATIONS
Swissotel Chicago
Guest rooms have been reserved for attendees and their guests with special course rates. In order to receive the special rate, reservations must be made before the room block is filled or before the expiration date of Thursday, August 15, 2019, whichever comes first. See the website for additional information.
SATURDAY, SEPTEMBER 7, 2019
7:00-8:00 a.m. Registration and Continental Breakfast
8:00 a.m.-12 p.m. Fundamentals and Supraventricular Tachycardias
1:00-3:00 p.m. Ablation of Challenging SVT / AVRNT / Accessory Pathways
3:30-5:00 p.m. Biophysics of RF and Intracardiac Ultrasound

SUNDAY, SEPTEMBER 8, 2019
8:00 a.m.-12:30 p.m. Ventricular Tachycardias / LV Fascicular Papillary Muscle / Tachycardia
1:30-5:15 p.m. Epicardial Mapping and Ablation / Scar Related VT Hemodynamic Support During VT Ablation

MONDAY, SEPTEMBER 9, 2019
7:30 a.m.-12:15 p.m. Atrial Fibrillation / Mapping
12:30-3:00 p.m. Illustrative Cases / Complication of Ablation / Appendage Closure Devices
3:15-5:30 pm. Cardiac Anatomy Workshop

TUESDAY, SEPTEMBER 10, 2019
7:30-8:15 a.m. Managing Anticoagulation in Patients Undergoing Ablation
8:15-11:30 a.m. Case Presentations: Atrial / Ventricular Arrhythmias

ONLINE REGISTRATION
Before 8/13 After 8/14
$995 $1095 Physicians/Scientists
$875 $975 Fellows/Residents, PA, NP, RN

The registration fee includes tuition, electronic syllabus, continental breakfast, refreshment breaks, and lunches.

ACCREDITATION STATEMENT – In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

CREDIT STATEMENT – Mayo Clinic College of Medicine and Science designates this live activity for a maximum of 28 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ABIM Maintenance of Certification Credit – Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 28 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.
