THE HEART BEAT OF CARDIOLOGY

COURSE DESCRIPTION

The Heart Beat of Cardiology is a premier educational venue for echocardiography in clinical practice. This is held collaboratively with the University of Chicago Medical Center. The program is designed to accommodate the evolving needs of inquisitive attendees.

Topics covered will include practical knobology and image acquisition live scanning, echocardiography, endocardial/pericardial disease, ischemic heart disease, vascular health, contrast, heart failure, diastolic function, new technologies, and valvular heart disease.

Unique Features: Audience response system to enhance immediate feedback. Easy access to faculty members. One-on-one interaction. Efforts will be made to introduce the clinical applications using new technology, however, there is no hands-on experience provided. Self-assessment questions to gauge outcome.

INTENDED AUDIENCE

This program is designed for adult cardiologists, cardiovascular surgeons, anesthesiologists, radiologists, nurses, cardiac sonographers, and fellows in training. Participants should have practical knowledge of echocardiography.

COURSE DIRECTORS

Roberto M. Lang, M.D.

Steve R. Ommen, M.D.
