COURSE HIGHLIGHTS
Updates in Internal Medicine is designed to present up-to-date information as well as contemporary approaches/strategies to the ever-changing and expanding discipline of internal medicine. The program will attempt to cover the scope of internal medicine, selecting from a variety of pertinent general and sub-specialty derived topics. Expert faculty will present evidence-based and emerging practical clinical approaches, regarding various general and sub-specialty topics.

TARGET AUDIENCE
Practicing general internists, family practice physicians, sub-specialists, and advanced practitioners in need of practice updates.

LEARNING OBJECTIVES
Upon conclusion of this program, participants should be able to:
• Summarize recent updates, clinical studies, and new guidelines that impact practice in general medicine
• Describe updates in direct oral anticoagulant management
• Summarize common clinical pearls in the areas of general internal medicine, cardiology, and gastroenterology
• Utilize strategies for communicating with patients
• Interpret antimicrobial stewardship standards
