**COURSE OVERVIEW**
This program offers a comprehensive review on the new diagnostic and therapeutic applications in contemporary cardiology. The program format will provide timely data from the latest clinical trials and updates on state-of-the-art techniques through lectures, case presentations, and interactive discussions. Join your colleagues for the latest updates and practice guidelines in cardiology from coronary heart disease, cardiac rhythm disorders, heart failure, prevention, and hypertension.

**PROGRAM-AT-A-GLANCE** (7:30-9:30 a.m. / 4:00-6:30 p.m.)
- **February 6** – Heart Failure
- **February 7** – Structural Heart Disease / Rhythm Disorders
- **February 8** – Ischemic Heart Disease / Pulmonary Hypertension
- **February 9** – Preventive Cardiology

Visit cveducation.mayo.edu for detailed program information and faculty.

**INTENDED AUDIENCE**
This course is intended for clinical cardiologists, cardiac surgeons, family practice, general internists, physician assistants, nurse practitioners, and allied health personnel with a cardiovascular interest.

**COURSE LEARNING OBJECTIVES**
- Describe the latest diagnostic and management strategies in heart failure
- Summarize state-of-the-art practical approach to the management of coronary disease
- Cite best practices for the management of patients with atrial fibrillation and ventricular arrhythmias
- Summarize the newer concepts of management of heart failure, cardiomyopathies, and valvular disease
- Describe risk reduction strategies including lifestyle modifications and medications
- Identify recommendations for lipid and hypertension management
