COURSE HIGHLIGHTS
- Strategies for diagnosing and managing challenging problems in clinical practice
- Adolescent Mental Health topics
- Vaccine updates in HPV changes
- Recommendations on preventing peanut allergy

TARGET AUDIENCE
Pediatricians, pediatric sub-specialists, family physicians, physician assistants, nurse practitioners, nurses and resident physicians

LEARNING OBJECTIVES
Upon conclusion of this program, participants should be able to:
- Describe how to integrate medical information from reviews of commonly encountered clinical scenarios into the daily practice of pediatric and adolescent medicine.
- Describe the implications for evaluation and management of patients from information provided during in-depth reviews of the topics of subjects.
- Employ effective clinical strategies for diagnosing and managing a wide array of challenging problems in clinical practice.
