This course is endorsed by the American Society for Gastrointestinal Endoscopy
Course description
Mayo Clinic Endoscopy Live – 2008 will provide a comprehensive, state-of-the-art experience for the busy practicing gastroenterologist and nurse. National and international experts discuss new developments and best practices in esophageal, small bowel, colonic and pancreatic endoscopy so the learner leaves with immediately applicable clinical information with the goal of improving his/her competency and performance for better patient care.

Features of this course include:
- 8 hours of live endoscopies broadcast via satellite from Mayo Clinic Hospitals in Florida, Minnesota and Arizona.
- A hands-on workshop provides the attendee with an opportunity improve their skills or learn new skills at EMR (Endoscopic Mucosal Resection), EUS-FNA (Endoscopic Ultrasound-Fine Needle Aspirate), ERCP (Endoscopic Retrograde Cholangiopancreatography), stents, ablation, clips and confocal, and balloon enterography. Attendees may select one or all of these techniques which will be taught by course faculty and facilitated by staff from the American Society for Gastrointestinal Endoscopy.
- Meet the Professor sessions will give practical “How to do it” tips when clinical experience must be relied on for challenging cases.
- “Best Video” Sessions will demonstrate best evidence approaches to patient management.
- Nursing Sessions provide the GI nurse and technician with valuable tools and resources to improve patient care. Nurses will have their own “Meet The Professor” sessions and hands-on workshop.

Course learning objectives
Upon conclusion of this program, participants should be able to:
- Improve performance of advanced therapeutic endoscopic procedures such as advanced imaging methods, endoscopic mucosal resection and double balloon enteroscopy
- Evaluate different approaches to detection and endoscopic therapy of dysplasia in Barrett’s esophagus, colon polyps and ulcerative colitis
- Establish programs for quality improvement and monitoring in endoscopy
- Describe future trends in endoscopic practice and technology

Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

Intended audience
This course is designed for the practicing gastroenterologist, gastrointestinal surgeon, physicians practicing gastrointestinal endoscopies, gastrointestinal fellows, residents, physician assistants and gastrointestinal nurses and technicians.
