**COURSE HIGHLIGHTS**
This three-day course will provide the attendee with a review of standard of care management practices and state-of-the-art advances in care of the patient with cutaneous melanoma. There has been a renaissance in the management of regional and distant disease. A multidisciplinary interactive discussion of this rapidly evolving field will be conducted. The course structure will also include:

- One day focus on epidemiology, prevention, pathology, surgical treatment and advances in systemic therapy for patients with melanoma.
- Two days of in-depth immersion into dermoscopy for imaging of melanocytic and nonmelanocytic skin lesions.

**TARGET AUDIENCE**
This course is designed for dermatologists, surgeons, oncologists, physicians in internal medicine, family practice, and general practice including physician assistants and nurse practitioners.

**LEARNING OBJECTIVES**
Upon completion of this activity, participants should be able to:

- Apply pattern analysis and simple algorithms for the identification of skin neoplasms.
- Identify and differentiate melanocytic from non-melanocytic lesions using dermoscopy.
- Evaluate the efficacy and risks of sunscreens, vitamin D, and tanning.
- Describe and compare biopsy techniques and indications.
- Discuss the role for neoadjuvant therapy.
- Breakout sessions focused on surgery, medical oncology and introduction to dermoscopy.
- Practical skills development to be more comfortable approaching patients with atypical skin lesions.
- Describe the changes to the AJCC staging with implementation of the 8th edition.
- Cite the pros, cons, and rational for sentinel lymph node biopsy in primary cutaneous melanoma.
- Discuss the controversies and options for management of patients with regionally advanced disease.
- Understand the rationale behind combing systemic and local therapies.

**PROGRAM AND ONLINE REGISTRATION**
A complete program and online registration is available on the course website:

**CREDIT**
In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team. Mayo Clinic College of Medicine and Science designates this live activity for a maximum of 21.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**AAFP:** This live activity, 13th Annual Practical Course in Dermoscopy & Update on Malignant Melanoma, with a beginning date of 12/07/2018, has been reviewed and is acceptable for up to 21.25 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**AOA:** This program has been accredited by the American Osteopathic Association for 21.25 credits of AOA Category 2-A.

A limited block of guest rooms have been reserved for attendees with a special course rate of $199 single or double occupancy per night, which includes guest room Wi-Fi and self-parking. Group rates will be honored three days prior and three days following the course dates, based upon space availability. Online reservations can be made at: [starwoodmeeting.com/book/MayoDerm2018](http://starwoodmeeting.com/book/MayoDerm2018). Hotel rooms are limited. You are urged to make reservations early. To receive the special rate, you must make reservations before the room block is filled by the cut-off date of November 6, 2018. Reservations will be taken following this date based upon room block availability, at the contracted meeting rate. Attendees are responsible for their own reservations. The standard hotel reservation cancellation policy will apply to individual reservations unless otherwise specified.
