Gastroenterology and Hepatology 2013

Thursday – Sunday
February 21-24, 2013

Westin Kierland Resort
Scottsdale, Arizona

Can't get away? Join us via live webcast!
COURSE HIGHLIGHTS
This course is designed to update physicians practicing in gastroenterology and hepatology and other health care providers on new approaches to the diagnosis and management of gastrointestinal and liver diseases. Faculty will present data on multiple topics, including inflammatory bowel disease, colorectal cancer, general GI, motility and nutrition, pancreaticobiliary disorders, endoscopy and hepatology. Controversies in diagnosis and management will be analyzed in discussions and breakout sessions. Complex endoscopy cases and cutting-edge technology will be presented by expert endoscopists in a video forum.

In addition, two optional educational activities will be offered. A review course to help GI physicians prepare for board recertification will be held Thursday afternoon. On Saturday afternoon, new endoscopic techniques will be featured at a hands-on endoscopy workshop using state-of-the-art technology.

An audience response system and social media (Twitter™) will be utilized for interactive learning by the participants.

All general sessions will be available via webcast for participants who are unable to attend the course.

COURSE LEARNING OBJECTIVES
Upon completion of this course, participants should be able to:

• Discuss the role of selected advanced endoscopic procedures in patient care.
• Identify controversies in the management of patients with various gastroenterological disorders.
• Define the role of newer antiviral medications in the treatment of viral hepatitis.
• Compare and contrast the various treatment options available for patients with inflammatory bowel disease.

INTENDED AUDIENCE
This course is designed for practicing gastroenterologists, surgeons, GI fellows, physician assistants, nurse practitioners, individuals specializing in gastrointestinal endoscopy and primary care physicians with an interest in gastroenterology.

DISCLAIMER
Attendance at this Mayo course does not indicate nor guarantee competence or proficiency in the performance of any procedures which may be discussed or taught in this course.

ACG SELF-ASSESSMENT PROGRAM
FOR MAINTENANCE OF CERTIFICATION

Thursday, February 21, 2013 • 2:15-5:45 p.m.
Fee: $75 • Pre-registration required.

Using an ACG module approved for self-evaluation of medical knowledge credit toward American Board of Internal Medicine Maintenance of Certification, faculty will answer and discuss questions covering key areas of gastroenterology. Participants will be able to complete their answer sheets for this module during the session.

Registrants are required to purchase the ACG’s Self-Assessment Program for Maintenance of Certification – 5th edition (2012). ($60 for ACG members; $80 for non-members). Once registered, participants will be contacted regarding how to purchase the required module. Attendees enrolled in the ABIM’s MOC program who successfully complete this ACG module with a minimum passing score of 70% will be awarded 20 self-evaluation of medical knowledge points by ABIM. Participants must be enrolled in ABIM’s Maintenance of Certification program to receive MOC credit for completion of this module.

Upon completion of this session, participants should be able to:
- Demonstrate a comprehensive knowledge of up-to-date clinical gastroenterology, and identify areas where additional study may be needed.
- Learn options for diagnosis, management and therapy of GI diseases.
- Identify strategies for screening and prevention of GI diseases.

HANDS-ON ENDOSCOPY WORKSHOP

Saturday, February 23, 2013 • 2:15-5:00 p.m.
Fee: $200 • Pre-registration required.

On Saturday, February 23, 2013, an optional hands-on endoscopy workshop will be offered. Attendees will rotate through six of eight stations, allowing 25 minutes per station. Prior to the course, attendees will rank the stations in order of preference and every effort will be made to accommodate each attendee’s top six selections. Pre-registration is required. Workshop attendance is limited. Assignments will be made on a first-come, first-served basis.

Stations include:
- EMR Cap Technique
- EMR Band Technique
- Radiofrequency Ablation
- Cryotherapy
- Single Balloon Endoscopy
- Double Balloon Endoscopy
- Hemostasis/New Devices
- Enteral Stents

Upon completion of this workshop, participants should be able to:
- Refine technical skills and learn new techniques.
- Acquire practice pearls from expert endoscopists using state-of-the-art technology.
