

BIOSENSING AND NANOTECHNOLOGY SYMPOSIUM

DISEASE MONITORING AND DIAGNOSIS

October 11 - 12, 2018

DoubleTree by Hilton Hotel, Rochester MN

<http://biosensenanotech.umn.edu>

The University of Minnesota Institute for Engineering in Medicine and Mayo Clinic invite you to this forum for faculty, clinicians, members of industry, and trainees to exchange ideas in this exciting and developing field.

The scientific program will be organized around cancer, neuroscience and diabetes, and attendees can expect

- Poster Presentations
- A Commercialization Panel

Attendees will have the opportunity to form new collaborations and identify important research directions in the area of biosensors, diagnostics and nanomedicine as they discuss topics of interest with engineers, scientists and clinicians.

Featured are Keynote talks from:

Gerard Cote, Ph.D., Texas A&M University.
Lin Tian, Ph.D., University of California, Davis
Shana O. Kelley, Ph.D., University of Toronto
Sang-Hyun Oh, Ph.D., University of Minnesota

Sumita Pennathur, Ph.D., University of California, Santa Barbara
Rashid Bashir, Ph.D., University of Illinois Urbana Champagne
Michael J. Cima, Ph.D., Massachusetts Institute of Technology
Kevin Plaxco, Ph.D., University of California, Santa Barbara

As well as talks from Mayo Clinic and University of Minnesota Participants.

For talk and conference information please see our website at <http://biosensenanotech.umn.edu>, email iem@umn.edu or call (612) 624-8483.
