

CTSC 6130

CTS Journal Club

Faculty: Stephen C. Ekker, Ph.D.

Credits: 1

Quarters: Fall, Winter & Spring

This course is limited to students in the CTS Predoctoral program only.

Overview

CTS journal club provides a forum for CTS predoctoral students to select, present, and lead a discussion on an original clinical and/or translational research article chosen by the student and their mentor. Each presentation will be 30 to 40 minutes in length followed by a question and answer session. Students will be asked to provide three formal written reviews of their peers' presentations.

Objectives

- To demonstrate critical evaluation of scientific data for content and significance
- To discuss the breadth of approaches and techniques used across the spectrum of clinical and translational science
- To discuss commonalities and applications across disciplines
- To design a visual presentation to be presented orally demonstrating the above objectives
- To participate in the peer evaluation process
- To promote track unity

Evaluation

Evaluation will be by faculty based on the quality of presentations, peer reviews, participation in discussion, and attendance.

Students are expected to spend approximately two to four hours per week on this 1-credit course.

For specific dates and times this course is provided, please see the [quarterly detailed course schedule](#).
