

Dear investigators and study team, thank you for your participation in the MCF Neuroscience Biobank! In the spirit of Thanksgiving, we would like to highlight the hard work of our many teams who work diligently to make the Neuroscience Biorepository a success! We are grateful for your support, as it is integral to making progress to find cures for our patients!

Featured Biobank Updates:

Progress for our patients (Made possible by YOUR hard work!)

- **Dedication to Discovery: The Patient's Journey**
 - Dr. Q was asked to speak at the October 2021 Clinical Research Forum and highlighted the translational power of the samples collected from Biobank into clinical trials for our patients. The presentation had over 500+ attendees! [Watch here!](#)
- **Saturday Collection**
 - Thank you to all the teams who helped us collect from a very rare metastatic case on a Saturday! This was the first time BAP and the OR team collected research tissue on a weekend, so we appreciate everyone's hard work!

Chan Zuckerberg Initiative

A Human Cell Map of Latin American Diversity

>\$2M recommended for funding

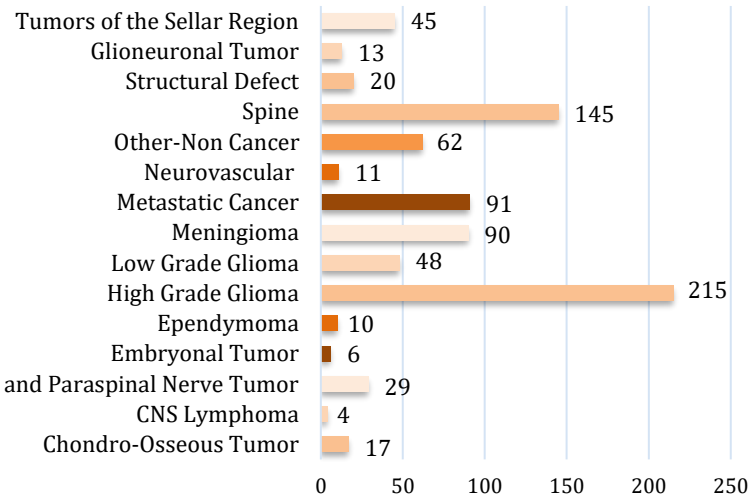

Chan Zuckerberg Initiative Funding Recommendation

- Congrats to the [Neurogenesis and Brain Tumors](#) lab group for building bridges to increase diversity in research using samples collected with the Neuroscience Repository! Their proposal has been recommended for funding from the CZI!

Overall Recruitment Update:

16-008485 Patient Collections

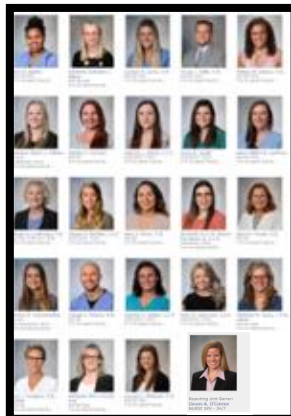

Thank you to the many teams that make Biobank a success!

Special Recognition To:

➤ Neurosurgery Nursing Team & Dr. Q's Fellows

➤ OR Nursing Team

➤ BAP Tissue Processing Team

And Many More...
