

Why Attend an Accredited Tobacco Training Program?

National and International Support

- Accreditation standards based on the **Core Competencies for the Evidence-based Treatment of Tobacco Dependence** established by the **Association for the Treatment of Tobacco Use and Dependence** (ATTUD, 2005)
- **Council for Tobacco Treatment Training Programs (CTTTP)** developed processes and procedures for establishing accreditation
- Accredited training programs are reviewed by a multidisciplinary panel of international experts

Benefits

- Accreditation is a key source of **External Validity** for this program and your training
- **Expert Reviewers** agree your program meets stringent standards
- Assurance of **Quality Control**, makes this training program and your training attractive to trainees and enhances your marketability
- Provides an additional avenue to promote the validity and reputation your training via listing on the CTTTP website (attudaccred.org/home)
